

# Celebrating a MAJOR Everglades Restoration milestone!

## *Groundbreaking for EAA Reservoir A-1 – the largest of three Acceler8 Everglades reservoirs*

The State of Florida,  
the Florida Department of Environmental Protection  
and the South Florida Water Management District

*invite you to join the celebration*

as we launch construction on the massive  
Everglades Agricultural Area Reservoir

### WHEN

Wednesday, August 2, 2006

### TIME

9:30 a.m.

### WHERE

Pump Station G-370 on US 27  
in western Palm Beach County  
(17415 South US 27, South Bay, FL 33493)

*The EAA Reservoir will hold approximately 190,000 acre-ft, or 62 billion gallons, of water – providing a new option for redirecting and storing releases from Lake Okeechobee, and reducing harmful discharges to coastal estuaries. The reservoir will also capture EAA runoff and, ultimately, help improve the quality, timing and distribution of flows to the Everglades.*

### **DIRECTIONS**

#### **From West Palm Beach**

Travel west on SR 80 (Southern Blvd.) until it joins with US 441 near Belle Glade. Turn left staying on SR 80/US 441 through Belle Glade and into South Bay. In South Bay turn left (south) onto US 27. Travel approximately 20 miles. Pump Station G-370 is on the right side.

#### **From Naples & Ft. Lauderdale**

Travel on I-75 (Alligator Alley) to US 27 in mid-Broward County. At milepost 354 (exit #354; old exit #70), turn north onto US 27. Travel approximately 17 miles. Pump Station G-370 is on the left side.
